

# Prides, Little Danger

I have always been the one that's heavy  
I have always been the one to save  
All the this time that we've wasted, all of these days  
Well there's something that's happened  
They're melting the way  
And now this world begins to shake, and I cannot escape

Keep on coming back to you baby  
I keep on coming back to you baby

I wanna be shaking with a little danger  
I wanna be dreaming everything I see  
I wanna be!  
She may be the way,  
She may be the way  
I wanna be

I wanna be shaking with a little danger  
I wanna be dreaming everything I see  
I wanna be!  
She may be the way,  
She may be the way  
I wanna be

It's hard to not repeat the conversation  
It's hard to not just put you on to bed  
Oh well I can get scared, oh most of the time  
And I know that it's you, but I see in your eyes  
That this world it has begun to shake, and I cannot escape, oh uh

I keep on coming back to you baby  
I keep on coming back to you baby

I wanna be shaking with a little danger  
I wanna be dreaming everything I see  
I wanna be!  
She may be the way,  
She may be the way  
I wanna be  
I wanna be shaking with a little danger  
I wanna be dreaming everything I see  
I wanna be!  
She may be the way,  
She may be the way  
I wanna be

It turned out bigger than I ever thought that it could be  
I keep on thinking of that moment when you turned to me  
I saw it in your eyes, there's something else  
I saw it in the way, you gave me hell  
I wanted you to stay  
Yes, I wanted your help  
I wanted you to lay me down, lay, lay me down, oh oh

And shake me with a little danger  
Be the everything I need  
You may be the way, you may be the way  
I wanna be

I wanna be shaking with a little danger  
I wanna be dreaming everything I see  
I wanna be  
She may the way,  
She may be the way

I wanna be
