

# Prima Dona, Has To Be

Breathe in, breathe out  
I say a little prayer  
How the gods above  
Could be so unfair

**\*Chorus\***

I know there's someone out there  
Waiting for me  
There must be someone out there  
There just has to be

Go on, go on  
Don't sit there like a fool  
You've graduated from  
A different kind of school

**\*Chorus\* (x2)**

I know there's someone out there  
Waiting for me  
There must be someone out there  
There just has to be

I should be glad that I'm alive  
It could have been much worse  
I might have never loved at all  
And never known what I am worth

How the gods above  
Could be so unfair

**\*Chorus\* (x2)**

I know there's someone out there  
Waiting for me  
There must be someone out there  
There just has to be
