Primal Fear, Everytime It Rains

Clouds of insecurity obscure me Assure me The mist of desperation Dripping down my skin The crushing storm will break me And take me from this state I'm in

(Chorus:)

Everytime the rain comes calling I can't stop myself from falling Into the darkness - into the madness Of a world devoid of fear and pain Everytime it rains

The waves of isolation
Crash around me - around me
The loneliness of silence
Echoes in my brain
With shore in sight I'm under
And wonder why I fought in vain

(Chorus:)

Everytime the rain comes calling I can't stop myself from falling Into the darkness - into the madness Of a world devoid of fear and pain Everytime it rains
