Primal Scream, Accelerator

Walk this streets full of dead meat Empty head, cancelled eyes Got a pain, got hunger Lord my soul ain't satisfied

Come on, come on Hit the accelerator Come on, come on Hit the accelerator Ain't hard to be a sinner Lord it's hard to be a saint Had a taste, you've had a glimmer Start to shiver, can't be?/see? what you aint

Come on, come on Hit the accelerator Come on, come on Hit the accelerator

Here we come, we're coming fast All the others are in the past Voices screaming in my head It's the future, It's the future

Come on, come on Hit the accelerator Come on, come on Hit the accelerator

Come on!!
