

Primal Scream, Deep Hit Of Morning Sun

Hey there girl
Summer girl
Suicidal
Beautiful
I can see
Death in me
Death in you
Love is good

Shine on me
Shine on everyone
Black is the colour
Deep hit of morning sun

Lose your friends
One by one
To the needle
To the gun
To the virus
To the bomb
To slow death
To fast burn

Shine on me
Shine on everyone
Black is the colour
Deep hit of morning sun
