

Primal Scream, I'm Coming Down

Driftin', driftin'

Driftin', driftin'

I've been so high, I never wanted to come down

I've been so lost, I never wanted to be found

I'm all hung over with bad dreams

I stumble in to messy scenes

I'm coming down

I can't face the dawn

I'm coming down

I feel too far gone

I've been driftin'

I've been strung-out, I've been burned

I've been lonely, to the point of no return

I drank myself to sleep last night

I see the the world through bloodshot eyes

Repeat Chorus

Highs and pills won't heal my ills

But they make me feel better for a little while

Repeat Chorus

I'm coming down

I'm coming down

I'm coming down
