

Prince, Fascination

Fascination

I want U

Fascination

I want U, I do

Fascination chamber lands on the round that kills

The art U hoped 2 mirror like

Leaves blood upon the sill

The dream U keep dreaming, is better than the life U lead

The papers run out a day and 13 hours, B4 the weed, it's so high

Fascination

Still I want U

Fascination

Still I want U, I do

The head U thought was rolling, is now reason 2 b bored

The rapper that gave that head will thank his manager b4 the lord

And the headache that U moan about feels much better than the treatment would

The pills gonna leave a side effect

That'll take another pill 2 correct

And the whole thing is leaving U feeling less than good

And U still high

...Nation

Fascination

Fascination

Fascination

Do U mind if I just watch U shake it

Shake it [4x]

...Nation

I want U

Fascination

I want U, I do

The most vital thing U thought

Is the epitome of doom

U can wake-up in cold sweat

Cause 1 of them is in U're room

Singin on the tele

Making more bucks than sense

So called king gives birth 2 so called ... prince

A breakup's bitter taste

Still here when the love is gone

And the breaks U wish 4

Finally comes among in song

Working it out

Work, work, work, working it out

Fascination
