Now let me see your tongue
That's right all night long
God damn that tongue's long
Stick it out let me see what you do with that
Like the way you looking at it
Watch me I'm sticking it out
Everyone in the crowd is sticking around
Get in there low on the ground
Too fast I'll slow down
Everybody gotta work it out
Bad boys in the front just open your mouth
Everybody gotta work it
Everybody gotta work it
