

Priscilla Ahn, Astronaut

Not long ago when the astronauts discovered
That us down below are living on a little rock with no place to go
So much that they'll never know (ohhh, boy)
They just want to be back at home
The elephant sees the dangers of the jungle
The birds and the bees only know which way to fly
If only I knew how to fly
The moment they got me to try (ah, ah, ahhh)
The fish in the sea have many things to tell me
Well what could they be? I'll never know
I had to go because I don't associate with fish
So I continue to roam (ohhh boy)
Looking to find me a home
[fading out] Ahhhh, ahhhh, ahhhh....
