

# Pro-Pain, Down In The Dumps

Angry on the outside angry on the in  
Disgruntled with the thing I see  
Looking for a future that lies in your hands  
Is such a bad place to be  
Educated hippies and psychedelic yups  
Really gets my Irish up  
I am just a beggar, begging for some money  
Spare some change to fill my cup

It's not so bad, I'm happy like a pig in shit  
Unlike some puppet of a sult and tie chump  
When anybody wants something from me  
That's where I'll be - Face down in the dumps

Mercilessly seeking pleasure in my pain  
The wages set do not increase  
Can't afford the rent, I'm tossed out in the rain  
I lost my life and lost my lease  
Hard times are coming up around the bend  
It's been that kind of year  
My battle with the bottle, is back with a bang  
I need a drink, so where is my beer

It's not so bad, I'm happy like a pig in shit  
Unlike some puppet of a sult and tie chump  
When anybody wants something from me  
That's where I'll be - Face down
