

Procol Harum, One More Time

Good to get your message
So you're coming back home again
Just can't wait to see you
No need to explain
A friend of mine told me
That you've found yourself a new man
I'm feelin' really good for you
Hope you understand
I've still got your picture
I'm sure you know
We had something special
Where did it go?

One more time
Let's remember how good it felt
One more time
Remember what we meant
One more time
Can't help wondering where it went
One more time
Just one more time

I wonder if you finished
Workin' on that book
Maybe I could come 'round sometime
'n take a look
A friend of mine told me
That you've changed your hair
They say you're really different now
I remember how you were
I've still got your picture
I'm sure you know
We had something special
Where did it go?

One more time
Let's remember how good it felt
One more time
Remember what we meant
One more time
Can't help wondering where it went
One more time
Just one more time
