

# Prodigy, World's On Fire

The world's on fire x18  
And it's too close to the wire  
The world's on fire x 6  
And it's about to expire  
The world's on fire x3  
And it's about to expire  
Too close, you're too close  
Too close, too close to the wire  
Too close, you're too close  
Too close, your world's on fire  
You're so special x3  
Why aren't you dead?  
Three, two, one, zero  
The world's on fire x4  
And it's about to expire  
Too close, you're too close  
Too close, too close to the wire  
Too close, you're too close  
Too close, your world's on fire  
You're so special x3  
Why aren't you dead?  
The world's on fire x24  
Too close, too close  
You're too close to the wire  
Too close, too close  
You're too close to the wire  
Too close, too close  
You're too close to the wire  
Too close  
You're too close to the wire  
Too close  
You're too close to the wire  
Too close  
You're too close to the wire
