

Progress, Human Nature

This world is going down
Plastic burns and toxic waste ruin it all
Our fathers wore their crowns
Their errors are the reason why we fall

(Chorus)
But the truth is not that we've learned
No-one thinks about what we did
See the fact that everything's gone
and ask: why should we persist?
And do we even care?

The cancer numbers climb
Our fathers said that they had nothing to do with it
Kids are born with faulted minds
Never thought how to deal with a world of shit

(Chorus)

I'd like to lead the way
To do the things not like our fathers do
I'd make the same mistakes
'cause I know that I am human and to

(Chorus)

The progress is gone
To a place where the sun doesn't shine
I have to warn you
There's a sign that our demise may be near, near, near, o so fucking near.
