we hate nature we love our wars  
we believe in our religion  
we are too dull to change our ways  
they're searching for their inner truth  
I think I have to buy another car

killing nature killing animals  
don't disturb we love our chemicals

we're growing and moving  
we're absorbing everything  
there is arising a new point of view  
but we don't pay attention  
there's still so much to do

we believe in our religion  
we hate nature love wars

they're searching for their inner truth

killing nature killing animals  
don't disturb we love our chemicals

we're growing and moving  
we're absorbing everything  
there's arising a new point of view  
but we don't pay attention  
there's still so much to do  
we have still so much to kill !

we're growing and moving  
we're absorbing everything  
there's arising a new point of view  
but we don't pay attention  
no we won't pay attention  
we just don't realize  
we won't realize

don't become like them
