

Project Pitchfork, The Deepest Place

They raise the light
And the darkness will fade
Your shadows will stay
If you don't move away
These shadows are yours
As you needed a proof
Your wish was fulfilled
Do you need it still?

Calm down for the alarm in your heart
Everything which moves in time must die
Nature is the largest spell we know
Listen to the alarm in your heart
Everything which moves in time must die
Nature is the largest spell we know
