

Projecto, Alchemy

I met those eyes in a cold day
It seemed an illusion a growin' confusion
I felt my heart breakin' in me
I couldn't believe it she was all I needed

Stop the time I feel fine
Right or wrong
I've found my love

Clouds are gone as she's in my dreams
Now we're together maybe forever
But if our time has to end
I'll never surrender I'll always remember

Stop the time I feel fine
Right or wrong
I've found my love

It's a mysterious alchemy what I feel
Just a mysterious alchemy
