

# Projecto, Fade Away

You often say that you have a dream  
But it's too difficult to make it real  
So life goes on always the same  
And nothing will change

Don't lose your head  
Follow your heart  
Don't let your dreams  
Fade away

You must believe in all that you do  
It doesn't matter what people tell you  
If you work hard you'll reach the goal  
And then you'll get it all

Sometimes you feel empty and tired  
You must reach don't stop to fight  
After this season of darkness and cold  
At last you'll warm your soul
