

# Proximity, Rainbow

You take the rainbows from my sky  
Even though I'm laughing deep inside  
Why should I tell you where I live  
Don't you know that murder is a sin  
Chorus: I am the one you loved  
Will you come with me  
If I'm angry all the time  
Will you leave  
You take the light away from day  
I'm not as stupid as you think  
Another life another one gone by  
You're crooked steps and the red in your eyes  
repeat chorus
