

Psapp, Always In My Head

One step just behind me
One stretch is out of hand
Someone just beside me
Some already dead
I found bull of time
Keep walking just beside me
I want to watch the tread

You're always in my head
Always in my head
Always in my head

They said quick comes no to
Breaking point
I spend to cross and to hear me out
I'm running up and still I took over
Watch our fortune cross

You're always in my head
Always in my head
Always in my head

So step just behind me
You're stretching out of hand
We walked just beside and
We're already dead
I'm dancing in the land and still I take over
Watch our fortune walk

You're always in my head
Always in my head
Always in my head
