

Psapp, Tiger, My Friend

You're always the same, you're always the same
You're always the same, you're always the same
You're always the same, you're always the same
You're always the same, you're always the same
You're always the same, you're always the same

Come on into the boat
To get from here to there
We'll row
We'll row
We'll row

Through leafy fronds and tiger fur
You take a better oar

We'll row
We'll row
We'll row

The best blue is through the trees
A royal canopy

We'll row
We'll row
We'll row

You're always the same, you're always the same
You're always the same, you're always the same
You're always the same, you're always the same
You're always the same, you're always the same
You're always the same, you're always the same
You're always the same, you're always the same
