

# Psychopunch, Crashing Down

Don't think I ever wanna see your face again  
I curse the day when I first heard your name  
First time you saw me I was crawling on the floor  
You picked me up & you took care of me for sure

But I don't really want to be with you  
True love only dies  
When I get high I will be leaving you  
Take a look in my eyes  
Then I wouldn't know what to say  
And I guess I'm gonna fuck it anyway

The only truth I know is hiding in a glass  
Smooth ride before it kicks my fucking ass  
I wind up stupid feeling sorry for myself  
One way Ticket straight to hell

But I don't really wanna be with you  
I got another waste of time  
When I get high I will be leaving you  
Guess it feels like doin' time  
& I don't know what to say  
But as usual I fuck it anyway

Crashing down it's more than I can bare  
Eventhough if I don't care  
I turn my head around I see you walk away  
Maybe someday  
But I think we're goin' nowhere anyway

Last night I woke up in a middle of a dream  
Too much to soon Babe no need to scream  
I think I'm going to a place that I once knew  
I need a lie Baby you need the truth

& then I know I will be losing you  
All down the line  
I need to hide you wanna know the truth  
It's just a matter of time  
Still I wouldn't know what to say  
Do you think that I will leave it that way
