

# Public Enemy, Crash

People runnin on empty  
Rock the sympte  
Outside 2001  
Other side of the sun

Running, here we go tumblin  
Few solutions, honey they polluted the future  
Got me thinking of a new thing  
Revolverlution  
Computer souls, controlled by confusion  
You be clubbin, while the world around you crumblin  
Think its funny? Bunch of crash test dummy's  
If all this shit, means the end of my money,  
This is a stick up, off go the pagers and celly's  
Us dollar, ain't worth what its printed on,  
Backed by the pentagon, sounds like babylon,  
So i babble on, some of us stuck  
In them barbershops and them hair salons,  
While the crash comin at your ass...  
While the crash comin at your ass like a bomb.

Now it all comes tumblin, runnin  
Time is runnin runnin crash is coming,  
Break the bank, spinning since the beginning,  
Now it all comes tumblin, crumblin  
Time is runnin runnin crash is coming,  
Break the bank, spinning since the beginning,  
Willie dynamite, time to cry and no ice.  
Y2k, fallin out of the sky, so its chosen  
Your ice is frozen, dont cry dry your eye  
Aint this a bitch, fuckin glitch. Mother fucker what  
The count down to my account, count it down  
Ashes to ashes, dust to dust, hush make that head bust.  
Last hour no control tower  
Making new may flowers, fightin new powers  
Have you forgotten, the other side of rotten,  
Picking electronic cotton diggin digital ditches,  
Lookout, lookout for the crash...crash...crash..

Have you forgotten, have yor forgotten

Y2k, thats the question,  
What the fuck is up got the 85 guessin,  
I told y'all for y'all protection  
Got me a name change, a pair of smith an wessuns  
Starring crescents mad packed with the lessons,  
Figure 5% got the 10 counting blessings  
Programmed by programs got you bowingto the man.  
Avoid collisions in mid-air, medicaid and welfare  
Zero zero what the fuck do you care?  
All the lights be out, you cant get nowhere.  
All around, thats why i found tony brown  
The world we know, its going down...down...down...down
