

# Public Enemy, Do You Wanna Go Our Way ???

Now what sound of my dj cuts  
Terminators back on some ol fools track  
Takes a nation of sellouts to keep us back  
Flippin disco raps used to be whack  
Now what you hear is what you lack  
Take a lil bit of this a lil bit of dat  
Who dropped the bomb on hip hop  
Who got biggie and who shot tupac  
Whats forgot / aint no eazy, no scott larock  
Now whats rap gotta do wit what you got  
For whom the bell tolls  
Is that the way the story goes  
85% believing all the videos  
God knows / who controls the radios  
Some people chose the road to be hoes  
And so i rose / in the middle of all the woes  
And def jam / negroes turnin up their nose  
Theres one way in no way out  
No doubt the body count  
Gettin headz checkin out

Do you wanna go our way  
This the way we puttin this down  
Do you wanna go our way  
This the way we puttin this down  
Do you wanna go our way  
This the way we puttin this down  
Do you wanna go our way  
This the way we puttin this down

Time to make life shine again like glass  
Gotta make it shine like glass

Outraged against the scene  
Proofread the script  
Flipped it back so im back in gang green  
We interrupt this routine i had a dream  
Da clean protein smacked the gangsta lean  
Between the triple team  
Wiped em out like a drought  
Damn im raps tetracycline  
Them lips foretold these apocalypse  
Everything had a shot  
And got hit wit bullshit  
Twisted politics tricks i couldnt get wit  
As one quits another nitwit hits  
All the way crazy, shady  
World turned upside down  
I put it down  
Why destroy what you love  
Look around  
Surrounded by chalk marks on the ground  
Where the lost got found  
Why it all come tumblin down  
Why he and she gotta die  
Now how dat sound

Do you wanna go our way  
This the way we puttin this down  
Do you wanna go our way  
This the way we puttin this down  
Do you wanna go our way  
This the way we puttin this down  
Do you wanna go our way

This the way we puttin this down

On & on to the break a dawn  
Some the 100 meter dash im the marathon  
Been around a long time  
But the rhyme the same  
Sound remains insane  
Exchange the reign  
Aint that somethin

So i parallel the brains of cobain  
Show no shame like the pain of kane
