

Puffball, In the Black

You've got the money but your car is way too slow.
I've got the knowledge that you'll never really know.
You have the money, now you want a name.
I do 100 in the quarter, do you wanna do the same ?
You've got potential but your car is standing still.
Listen up and learn it from a man who's got the skill.

No matter what you do just don't forget the tach.
Control the leadfoot boy and keep it in the black.

We've got to get going so just crawl under the hood.
If you wanna be a winner, do it good.
So you're a daredevil but it takes more than that.
Superfluity of coolness and a car stripped from fat.

No matter what you do just don't forget the tach.
Control the leadfoot boy and keep it in the black.

The way to the top can be far from pretty
From the garage to the strip at Scat City.
Peaking out in your Charger R/T.
At over 100 you just can't crack, just keep it in the black !

No matter what you do just don't forget the tach.
Control the leadfoot boy and keep it in the black.
