Let's go driving

With a feeling of caramel

With a jumping rhythm

The radio station is the BBC

Along the seashore

At the Magellan Festival

Doing the hustle dance

Seagulls are flying BOAC

At the American wharf

For some reason we're excited

Driving at full speed in our swimsuits

Get our liquor right away at Matsubara

Let's go eat some crabs

Be shy

The lone happy beach is charming

Almost too much like a postcard

Let's go to the shore

Let's go together

A loving rhythm in a bursting mode

Night and day

We shorten the distance

His and my

Cell phones are ringing

The pelican looks lonely

Floating on waves

Anybody can feel that sorrow

Even the fish have that perfume

Let's go eat some crabs

Be businesslike

That's Harrison Ford on that porch

We are very lucky girls

Let's go energetically

Let's lead the way

Let's run around in synch with the rhythm

Let's go eat some crabs

Be shy

The charming white happy beach
Looks too much like a postcard
Let's go to the shore
Let's go together
We've been invited to synchronise with the rhythm
A loving mode with bursting rhythm
