==English edition lyrics==

&lt;/lyrics&gt;

The two of us on a red swing together,  
Felt like we were growing up as we swung  
That mountain remains the same as ever,  
Just you are not with me

Each morning shines,  
Each day working hard for the living  
I waited too long for so long,  
Let's turn back time

My childhood dream just can't continue  
Both of us always laughed,  
so it's scary to forget

Just a voice, one word,  
the promise and the pain  
The hands easy to hold up,  
small town that I look down

Each morning shines,  
Each day working hard for the living  
Time after time,  
the small room I laid myself as well

Texture of your hand, your favorite flower  
and your favorite sudden white puppy  
The nights are filled with countless tears

I want you back now forever  
I want to see you
