Hey boy, hold your head up

Hey girls, laugh

Thank you everyone, everyone

It's so small and ordinary

The echo of this planet

Hey boy, hold your head up

Anytime, join hands

And connect
Because the round sun rises
Let's live large
Start walking on the endless road
The blue earth is in your hands
Hey girls, laugh
Again and again
Together, let's sing
As a breath of air breathes softly
Let your body go
Blossom under the spring sky
The huge universe is in your heart
Hey boy, hold your head up
Hey girls, laugh
Thank you everyone, everyone
It's so small and ordinary
The echo of this planet
