

Pulse Legion, Despair

Despair

The last fight
That never ends
The face off
As the last one
the thin line
Its coming in
My last sight
Its reaching out

The last lie
In the way
your inside...
And alone
Your emotions
That never end
The last thing
I come without

Dispair...

The face-off
The last fight

The Last fight
That never ends
Dispair
The face-off
As the last one
The anguish is real
its cut deep within
The last fight
The past
So theres nothing within
You're closing in despair
Emotions its near
this recession is real
So theres nothing within

You're living
This last fight
You're living in dispair

Despair...

You're living
This last fight
You're living in dispair...
