

Pulse Legion, End It All

End It All

Will you see
The face i hide behind
altered image
That life thats kept inside
Revelation
It comes to you this time
You waste the wish
For pain in me

You hate my life
You hate this game
And nothing goes
And nothing stays
To wait for you
Its be this way

There is never a way out
In hypocrisy
Do you ever care
What you've given me

You tear my hope
I had it all
You locked me out and watched me fall
Everything ive done was done for you
To steal my dreams
You end it all

Everything now
I wait to close my eyes
Every promise you make
Will turn to lies
No more reasons
Your turn to take the fall
No more pain
This time
Ill end it all

You end it all
Ill end it all
You end it all...
