

# Pungent Stench, Treatments Of Pain

So what do you think now stupid little smack  
Thought you could play the tough guy or what  
You won't leave this cell until your brain's doing well  
And if you don't obey I'll teach you...  
Shut up - I'll fucking get you I'll smash all of you  
Got nothing to regret  
And I will not forget  
My aim - Punishment - Pain  
My will - Torture - Kill  
My injunction is to change your confused mind  
And believe me, we will do our best  
Brain-washing, injections, shock therapy and special treatments  
You deserve to suffer and...  
Fuck you - You can't bring me down  
Where's a will there's a way  
No walls will held me in  
My revenge will double my sins  
You fucking freak shouldn't live on this earth  
You're a waste of life and worth being killed  
Death sentence actually is still not enough for you  
But your wishes for us will come true for you  
No way I'll change my mind  
Hatred burns too deep inside  
Try to kill me but beware  
You'll be dead before I bleed red  
My force - Hatred - Sin  
My end - Sorrow - Grief  
My aim - Punishment - Pain  
My will - Torture - Kill
