Virtual reality

I may never get it right
you might find i fall away
I can't live the perfect life
Every hour every day
I may stumble you may see
a side you never knew of me
I don't wanna let you down but I cannot make the gaurentee
that I could love you like you love me til the end of time
it drives me crazy thinkin' why you want me by your side

(CHORUS)

I know that I'm not dreamin'
is my mind playin' tricks on me?
No, your love won't let me believe in
Virtual Reality
It's beyond imagination
your love changes everything
I know in my heart this ain't no
Virtual reality

I may never understand
Lord, my mind is so amazed
I can't really comprehend
I'm entranced, Blown away
For what I feel inside my heart
Isn't always what I see
Funny how your faith can change your Virtual reality
Seems too easy to believe you'd love me as I am
But this reality will keep my heart right in your hands

(CHORUS)

Virtual

(TALKING)

I know that i'm not dreamin'
is my mind playin' tricks on me?
no your love won't let me believe in
