

Push Play, Starlight Addiction

If I could then I would
Take you away from here tonight
You're the air I breathe
Do you remember
Those cold Decembers
With you wrapped around me as tight as a glove?
We watched the stars in the sky
Midnight blue matches your eyes
Together forever and ever she said
But she lied
Nothing can last forever

Refren:

If I could then I would
Take you away from here tonight
You're the air I breathe
If I could turn back time
I'd do it all to make you mine
Starlight Addiction
I'm always dreaming
Never stopped believing
That you could still be standing right next to me
We watched the stars in the sky
Midnight blue matches your eye
Together forever and ever she said
But she lied
Nothing can last forever
Refren
