

# Pushover, All as Well

Lingering on just like you I can see I'm the one  
Forever lost beneath me good thing my deed was done  
Early bird is here to get you and to carry you off  
Left here alone is easy when does it ever stop  
I am a man who takes up time  
Whoever wants just has to wait  
My friend amen who drinks my wine  
Been here been here  
Cannot change my world  
Cannot ruin my day  
It's all as well  
I can see through your eyes  
Cannot read through your mind  
So bomberly I wait here hoping that you show up  
Can anyone hear me through this  
I will send out a breaking fist  
Been here so long I miss it much  
Been here been here
