## Quasi, Sugar

You can't make a giant Just by stretching out a dwarf. One person's beauty mark is Another person's wart. Just a spoonful of sugar makes the poison go down fine, It makes the poison go down fine. If everything is a movie just projected in your head, You can have a seat & amp; Simply swallow what you're fed. And you can spend a lifetime Painting pictures for the blind Just painting pictures for the blind. A blank piece of paper is better than a book. What you gave is worse than what you took. But a spoonful of sugar makes the poison go down fine It makes the poison go down fine
