

# Queen Adreena, A Heavenly Surrender

I make you a prayer, a heavenly surrender  
To the one somewhere out there, the one who can mend her  
I pray for the one who can open my door  
Let me go through  
Oh yes, give me more  
A prayer for the lover, the willing intender,  
To break down the door, a heavenly surrender

I only make love to jesus  
I only fuck god  
I only make love to jesus  
I only fuck god

I crave your violence, act it upon me  
Set me free by your weighted autonomy  
I am so human, so small, so debased,  
Jealously and darkness rule over this place  
A prayer for the lover, the willing intender,  
To break down the girl, a heavenly surrender

I only make love to jesus  
I only fuck god  
I only make love to jesus  
I only fuck god

I'm a lover of freedom, but I cling to the dust  
I'm blown by the wind, I'm a slave, I am lust  
Please rub my face in the shit that I sleep in  
Tie me and bind me up for your keeping  
I'll make you a prayer, a heavenly surrender  
To the one somewhere out there, the one who can mend her

I only make love to jesus  
I only fuck god  
I only make love to jesus  
I only fuck god  
I only make love to jesus  
I only fuck god  
I only fuck god, I only fuck god
