

Queen Adreena, Sleeping Pill

Oh so my love this sleeping pill
Will watch you through the night
and come the dawn I'll be long long gone

I tried I tried I tried
I tried
I tried

We feed upon the broken branch
We kiss the stars goodbye
For the sun cant fight this overcast

I tried I tried I tried
I tried
I tried

The spider's web cant break our fall
I whisper to the sky
I pray she takes you in her arms

I tried I tried I tried
I tried
I tried

Storm warning in the sand
She evaporates beneath my fingernails
The road is lost underwater
She's running down the river with eels
She is lost to me
