

# Queens Of The Stone Age, Ode To Clarrissa

I knock on your door  
I tiptoe on the floor  
I hope your daddy aint home right now  
He warned me once before  
You know he warned me once before  
I stay up late  
So we can keep our date  
I love that we dont get no sleep  
So to your window I creep  
You know he warned me once before  
chorus:  
Im the one your mamma told ya bout  
Im the one your pappa told ya bout  
Now youre in love  
And why shouldnt you be  
Im everything youll never be  
You say dont leave  
Baby, I cant wait  
Next time, we share my second base  
repeat chorus
