

Queensryche, I Will Remember

(Chris DeGarmo)

There's a cold wind out tonight
The chill of distant eyes
An orbit survey finds...your mind

I will remember
You will remember
The star that came tonight...

There's a thought that fills your mind
A vision of time
When knowledge was confined
And then we wonder how machines
Can steal each other's dreams
From points that are unseen...It's real

I will remember
You will remember
The star that came tonight

When you gaze at the evening sky
And you're reaching out with your mind
You might see the nation's eyes
Don't hide...It's you

I will remember
You will remember
The star that came tonight
Oh can't you see the light
Of the knowing star

I Will Remember Midi
