

Queensryche, Real World

[From "Last Action Hero" soundtrack]

Strange, the view from here
Words we spoke, forgotten at the time
Now replay in my mind
What went wrong, what was right
Looking back, I never was there for you
You didn't say, but I know it's true

I can't find the real world alone
Every time I think I've won
I hear your voice inside, questioning
Where have you gone
Can't you remember feeling so alone
You always had the answer that I could not see

I can't find the real world
I can't find the real world
I can't find the real world alone
I can't find the real world
I can't find the real world
I can't find the real world alone
