

# Quench, Beautiful

When I look at you  
I see something so beautiful  
When I see you  
You shine the truth

When I look I see  
All you shine and all your beauty  
If you only knew what i know

And if you only knew what I know  
If you'd only seen what I've seen  
If you understood what I now understand

Then you would surely see  
And you would listen just to me

For you are beautiful  
You are beautiful  
Beautiful to me

If you could shut the eary darkness  
And if you could focus on the light  
If you could hear the song  
That's sung over you

So don't give them the power  
To tell them who you are  
For you were born to shine  
Like the star that you are
