

Quietdrive, Quite Clear

Evicted from the ocean
So far that I can see that
Evicted from the ocean
So far that I can see that

Passing by
My untrained eyes
Searching for
Your sentiment
Made me see
Six moves ahead
Why can't I
Make since of this

You went away
You went away
You went away
Why didn't you
You went away
I wouldn't stay
I couldn't change

Chorus
But it's not quite clear
And it's not quite dead
What went on that night
In my pain in my head
And I never got
To see you again
Anymore

I've been told
That I was wrong
Why can't we
Be us again

You went away
You went away
You went away
Why didn't you
You went away
I wouldn't stay
I couldn't change

Chorus

You could come stay
What'd you say when
I was lost
But you expected
I would come back home
Would come back home
What'd you think when
I was lost
But you pretended
I was lost
But you pretended I
Would come back home

Chorus

Evicted from the ocean
So far that I can see that
Evicted from the ocean

So far that I can see that
