

Quietdrive, Rush Together

They grew up in the same old town
Never knowing the other was around
Read from the same damn books
Never gave each other looks
But one day the sun will shine
I know
For their eyes have told me so
Chasing advice from those who say
I've lost my mind

[Chorus]
Rush together to find each other
Now it's too late
You can never wait for luck
Together playing
The same instrument
That you still can't hear
At all

So that's how the story goes
So far
I'll tell you the rest
But now
I'm tired of what I think
A situation where I can't sing
But I hate the vagrant life
I know
Nothing has been more sold
'Til Now
Living my life after those who say I've lost my mind

[Chorus]
So what do you say?
So what do you say?
Can we turn this clock back
Thirteen years
And relate
I won't mind
Can we stay?
But isn't it fate?
But isn't it fate?
That we spill our guts out
On this very day
I don't mind
I want to
I want to
Stay

Rush together to find each other
Now it's too late
You can never wait for luck
Together playing
The same instrument
Are you listening at all
Are you listening at all
