Uhh, Trina
Now you wanna hold me kiss and touch me
Just yesterday you ain't even know me
I've been lonely no communication
Finding numbers am I suppose to be patient
I've waited the sun came up
Watched you walk outta the house I was stuck
Tears fell down my face, so hurt
You'd chase everything in a tight mini skirt
(Baby I'm sorry)
That hurt, was she better than me
You know no cost, bet she wasn't free
Why me, why you standing right here
Pullin on my wrist, singin in my ear (I don't wanna fight)
You wanna make love, no you wanna play games
I'm a grown woman betta check my name
Tired of being damaged all I do is cry
You wanna start over, give me one reason why

Cause I, Just wanna chill,
Girl I wanna feel your body next to mine, to mine, next to mine,

Don't wanna scream (don't wanna scream)
Girl can't we please just hold each other tight (tight), tight (tight)
All night.

I don't wanna fight
And don't wanna fuss girl
Tonight I just wanna make... (I wanna make love girl)
Love girl
I don't wanna fight (don't wanna)
And don't wanna fuss girl (don't wanna)
Tonight can't we just make...
Love girl (make love, make love, make love)
Love, love, love, love x 3
Tonight can't we just make
Love, love, love, love...
