

R.I.O., Underneath The Stars (feat. HALO)

Underneath the stars
Is where we walk our way
If morning never comes
This dream will never fade
Roaming through the dark
That's when we feel the same
Just to be torn apart
By the light of day

Underneath the stars
Is where we walk our way
If morning never comes
This dream will never fade
I can get lost in forests of your love
Skipping like stones, I'll keep you afloat

Underneath the stars
Underneath the stars
Underneath the stars
By the light of day

Underneath the stars
Is where we walk our way
If morning never comes
This dream will never fade

Roaming through the dark
That's when we feel the same
Just to be torn apart
By the light of day
