

Ra Ra Riot, Everest

Haven't heard from you for days what went wrong?
We waited for you in the dark for much too long
Well, can't you see it in my face? I like the way it's been
??

Whoa, whoa, I need to let you go
You never do it baby, you know I know
Whoa, whoa, I can't sleep anymore
It's true, I used to dream of black and blue

?? anger in my mind, ??
Wondered all the time myself, "What could it be for?"
Well, tell me what you loathe, you loathe, and you can live without it
Or maybe we could fuck all night and you'll forget about it

This time we know
I will be alone.
Ever wonder why
I don't even try?

Whoa, whoa, I need to let you go
You never do it baby, you know I know
Whoa, whoa, I can't sleep anymore
It's true, I used to dream of black and blue

Whoa, whoa, I need to let you go
You never do it baby, you know I know
Whoa, whoa, I can't sleep anymore
It's true, I used to dream of black and blue

This time we know
I will be alone.
Ever wonder why
I don't even try?
