## Ra Ra Riot, Everest

Haven't heard from you for days what went wrong? We waited for you in the dark for much too long Well, can't you see it in my face? I like the way it's been ??

Whoa, whoa, I need to let you go You never do it baby, you know I know Whoa, whoa, I can't sleep anymore It's true, I used to dream of black and blue

?? anger in my mind, ?? Wondered all the time myself, "What could it be for?" Well, tell me what you loathe, you loathe, and you can live without it Or maybe we could fuck all night and you'll forget about it

This time we know I will be alone. Ever wonder why I don't even try?

Whoa, whoa, I need to let you go You never do it baby, you know I know Whoa, whoa, I can't sleep anymore It's true, I used to dream of black and blue
