

# Rachel Proctor, I'm Gonna Get You Back

I'm Putting on your favorite dress  
You know the one you love that really shows off my legs  
Gonna march downtown right into your favorite place  
And that little blonde, well she better not get in my way  
'Cause I'm on a mission

Chorus:

I'm gonna get you back  
It won't take long  
It'll happen fast  
You might as well face the fact  
I'm gonna get you back

It's kinda crowded in here tonight  
You've got yourself surrounded by every pretty girl in sight  
But that ain't gonna stop me my time is comin' round  
You'll wonder what just hit you when it all goes down  
I can't wait to see your face

Repeat chorus

Over at the bar, hey there's your best friend  
Think I'll just sneak over and ask him how he's been  
I'm thinkin' he's always liked me anyway

Repeat Chorus

I'm gonna get you back  
Yeah, I'm gonna get you back
