

Rackets And Drapes, Trick Or Treat

On the streets at night, not a pretty sight
On the corners of America, since when does love have a price
Your flesh is meat, for dogs in heat
On the TV's of America, is what the children see

Come and play
Trick or Treat

This is Hollywood, in your neighborhood
Spreading all over America, it's like a disease
Like diamonds that rust, love has turned to lust
On the talkshows of American, you become a glamour queen

Come and play
Trick or Treat
