

# Radial Angel, Let You In

I don't wanna drift around this world  
Looking for something  
I'm not sure that's there  
And I don't know what's in my mind  
But I want to know

Breathe you in and I breathe you out

And I've tried everything that there is  
And never found a cure  
And every time  
I get everything that I want  
I just keep wanting more

Breathe you in and I spit you out

And you will never give up on me  
No never give up on me  
Until I let you in
