

# Radial Angel, Rain

rain falls so hard, i can't sleep at night  
you look so right, so how could i fight  
you will be there, because you always cared  
love is my friend

where were you, when i needed you  
you were there

i fall to my knees  
that's when i pray  
that's when the tears fall  
that's when i say

where were you, when i needed you  
you were there

(chorus)  
you wait there  
you wait for me

i know that you're there  
you've called my name  
and it's one more last time  
for me to say
